

Online Competency Assessment for Children's Services & Residential Schools

Who is it for?

This competency assessment combines the features of our foundation and advanced online competency assessments and is suitable for:

- ➔ Managers who want to assess the competency of their staff who work in children's services or residential schools
- ➔ Staff members who want to make sure they are competent in medicines handling
- ➔ Senior staff who are training to become an assessor (in combination with the Children's Services and Schools Advanced Distance Learning Workbook) and who want to “assess the assessor”

How does it work?

1. Watch Videos	2. Identify Errors	3. Decide and Consider	4. Answer Questions	5. Competency Assessed
View a video scenario to spot errors in administration	Spot errors in recording on MAR sheets e.g. wrong dose given, doses given too close together, doses given at wrong time of day etc.	Decide if you will administer a medicine looking at the medicine label and MAR sheet and other indicated factors e.g. the course is complete, the medicine is out of date, it is the wrong person's medicine	Respond to a series of scenario-based questions	Receive a Learning Needs Report and proof of competence

How long will it take?

The online competency assessment takes about 30 minutes to complete.

Online Competency Assessment for Children's Services & Residential Schools

What happens next?

The online competency assessment provides a Learning Needs Report to indicate the areas where you are competent and the areas where further training is required. This is your evidence to the regulator that you have been competency assessed and have taken further action where necessary.

How much does it cost?

Online Competency Assessments	Price per licence (+ VAT)			
	From 1 to 9 Licences	From 10 to 99 Licences	From 100 to 499 Licences	From 500+ Licences
Children's Services and Residential Schools online competency assessment	£25.00	£22.50	£20.00	Contact us
Notes: <ul style="list-style-type: none"> Licences are single use. Where a delegate is not deemed competent, the licence allows one retest after further training/supervision has been undertaken within the workplace. Discounts as above are applicable for the quantity of licences purchased at the same time.
