

# OPUS Support – Online Competency Assessment

## Readiness check:

It's important that you complete the whole assessment in **one sitting**. Before you start, complete this checklist to ensure you are ready:

- ✓ I have uninterrupted time available now to complete this in one sitting (approx. 40 minutes).
- ✓ I am in a comfortable, quiet location where I can focus.
- ✓ I have a stable internet connection and a working, charged electronic device e.g. computer, laptop, tablet. **This assessment should not be completed on a mobile phone.**
- ✓ I have any additional equipment I personally require, such as reading glasses, at hand.

There is no audio in this assessment, so there is no need to test your computer's audio. There is also no time limit, so **take as long as you need**.

## Choose your setting:

Choose the setting that best describes where you work most of the time – **once selected, this cannot be changed without intervention from OPUS.**

*If you work in Case Management, please select 'Homecare & Reablement'.*

## Points to remember:

- Read each scenario/ question CAREFULLY – *it may help to read it aloud*
- Take time to think about what you are being asked
- The questions and answer options appear in a random order
