

# How to Build Confidence in Buccal Midazolam Administration

Are you unsure about administering buccal midazolam? Many team members feel uncertain about their ability to administer this emergency medicine safely.

Our **Competency Assessment for Buccal Midazolam Administration** is here to change that, equipping you with the knowledge and confidence you need to deliver care with assurance.

## What Are the Common Challenges?

Emergency medicines are given infrequently, so it is common for both team members, and senior team members alike, to feel apprehensive about giving this type of medicine when they've got very little experience of doing so.

Senior team members often worry they don't have the experience to ensure their own team members are competent. Equally, it can be hard to find the time to complete these competency assessments on a regular basis.

## Why Choose Our Competency Assessment to Address these Challenges?

- Provides a practical skill evaluation for learners of all levels of experience.
- Clean, user-friendly design.
- Delivers hands-on understanding of how to administer buccal midazolam safely and effectively, addressing common concerns and uncertainties.
- Navigate a straightforward, intuitive platform designed to reduce stress and help you focus on what matters most.
- Accessible for all.
- Our clear, simple language ensures that second-language learners and those new to buccal midazolam feel supported throughout the process.

## How You Benefit

- Overcome hesitation and build confidence in administering buccal midazolam.
- Validate your skills and ensure safe, effective care for those you support.
- Experience our supportive assessment process tailored to busy professionals.
